Billabong Jaya Housing, B2, No. 2, Bandar Lampung 35155

I am a third-year Data Science student at the Sumatra Institute of Technology (ITERA) with a deep interest in machine learning and data analysis, and I am interested in pursuing a career in the field of data, such as data scientist. I am proficient in using Python and R for data exploration, visualization, and modeling. Additionally, I have expertise as a web developer, with a strong understanding of JavaScript, CSS, and HTML for building interactive and responsive web interfaces.

Work Experiences

Sumatera Institute of Technology - South Lampung, Indonesia

Feb 2025 - May 2025

Data Science Statistics Practicum Assistant

- Coordinate with lecturers in the implementation of practicum in Data Science Statistics courses.
- Explain the concept of algorithms in Data Science and their application in data processing.
- Using RStudio to assist practitioners in data analysis and visualization.

Sumatera Institute of Technology - South Lampung, Indonesia

Sep 2024 - Dec 2024

Programming Algorithm Practicum Assistant

- Explain the basic concepts of algorithms such as branching, looping, and functions using Python.
- Coordinate with lecturers in the implementation of the practicum of the Programming Algorithm course.
- Provide technical guidance and feedback to students during practicum sessions.

Sumatera Institute of Technology - South Lampung, Indonesia

Aug 2023 - May 2024

Practicum Assistant Introduction to Computer Software I & II

- Explain lecture material to students related to the use of computer software.
- Assist practitioners during practicum sessions in understanding and applying the material.
- Focuses on data management using Microsoft Excel and the basics of programming with the C++ language.

PT. KREASI KARYA BANGSA - West Jakarta, Indonesia

Jul 2021 - Sep 2022

Contributor

- Host podcasts, guide discussions and interview sources.
- Become a Discord admin, manage the community and ensure communication is good.
- Manage WhatsApp groups, disseminate information and keep communication running smoothly

Education Level

Sumatera Institute of Technology - South Lampung

Aug 2022 -

Ungraduate Data Science, 3.20/4.00

SMKN 4 Bandar Lampung - Bandar Lampung

Jul 2019 - May 2022

Senior High School, Software Engineering

Organisational Experience

HMSD Adyatama ITERA - Sumatera Institute of Technology

Jan 2025 - Present

Chairman of the Legislative Council

HMSD Adyatama ITERA is a student association of Data Science study program at Sumatera Institute of Technology.

- Overseeing the legislative process in HMSD Adyatama ITERA.
- Coordinating members of the HMSD Adyatama ITERA Legislative.

Student Management Skills Training - Sumatera Institute of Technology

Apr 2025 - Present

Guide

Guide ITERA (Pemandu ITERA), a facilitator team responsible for organizing and leading the Student Management Skills Training (LKMM) at Sumatera Institute of Technology, aimed at equipping students with essential leadership and organizational skills.

- Guide participants in understanding the basics of self-management, organization, and leadership.
- Facilitate discussion sessions, simulations, and exercises to hone basic managerial skills.
- Encourages active participation and helps create an interactive and applicable learning atmosphere.

Science Fest

- Present

Head of Operations Division

Science Fest is the name of the Faculty of Science's anniversary event, which is a celebration of the anniversary of the Faculty of Science itself.

- Organize and supervise logistics and accommodation needs to support the smooth running of activities.
- Coordinate the team in the procurement and distribution process of activity equipment.
- Manage the venue and facilities during the event to suit the plan and needs of the participants

Projects

- **PlantCare**  (2022): PlantCare is an interactive web application designed to help you care for your houseplants in an organized and enjoyable way. The main backend uses Pyramid, while the frontend utilizes React with a modern interface.
- **Leaf & Co.**  (2025): Leaf & Co. is a modern e-commerce web application specifically designed to display product catalogs with an intuitive and responsive user experience.
- **ANALISIS PENGARUH MOTIVASI DAN DISIPLIN KERJA TERHADAP KINERJA DOSEN DI INSTITUT TEKNOLOGI SUMATERA DENGAN METODE REGRESI LINIER BERGANDA**  (2025): This study aims to assess the influence of work motivation and discipline on the performance of lecturers at the Faculty of Science, Sumatera Institute of Technology (ITERA).
- **Hand Gesture Volume Control**  (2023): This project is a major assignment for the Algorithms and Programming course that implements a volume control system using hand gestures. The application uses a webcam to detect finger positions and control the system volume based on the distance between the thumb and index finger.
